MARBLE

FROM THE DEEPEST NATURE
TO THE HIGHEST PROJECTS

LSI STONE has been providing natural stone solutions to the construction industry since 1999.

Regina Vitório and Pedro Vazão started a family business with 2200 sqft and today we witness an innovative industrial facility with 100 000 sqft equipped with the most recent technology, a modern structure, and a highly skilled team.

LSI has continuously invested its resources in research, design, and innovation to guarantee that customers obtain top quality stone products, manufactured in complete respect to the people and the environment, for the most varied destinations of use in every single corner of the globe.

Azul Celeste

Marble of blue and white color, fine to medium grain and dark blue veins. There may be some variations in the intensity of the shaft, pitch and structure.

Recommended for: coatings, flooring, decoration and other stone work.
